⚡ Contextual Deep Links

• **Logo Click:** Instantly returns viewport from any deep sitemap branch back to the Home start page.• **Signature Sets:** Contains inline anchors sending users directly into specialized listings inside 'The Vault'.• **Future Expansion:** Component Service Cards inside 'Services' mapped to trigger specialized detail popups.

✦ Navigation Redundancy

• **Global Footer:** Replicates all core sitemap routing to avoid user dead-ends at the bottom of long scroll sections.• **WhatsApp Floating FAB:** Active overlay present across all pages, pointing to immediate real-time support channels.

Utility States & Overlays

OVERLAY STATE
Mobile Nav Drawer
Triggers on mobile viewport layouts when the custom hamburger menu icon is tapped. Slide-in from right transition.

SYSTEM BANNER
Cookie Consent
Launches as a sticky bottom container on initial website entrance. Simple dissolve dismiss mechanism.

FALLBACK PAGE
404 Page Not Found
Standard premium error layout directing stray routing back to primary Hamsalekha signature pages.

ACTIVE WIDGET
WhatsApp Float
Interactive shortcut present in the bottom-right viewport coordinates. Leads to official WhatsApp business channel.

Global Prototype Configuration

FLOW NAME
Hamsalekha Website
Identified flow container for main web routing.

STARTING FRAME
Home Desktop (9:30)
The primary entry node triggering first canvas load.

DEFAULT TRANSITION
Dissolve, 300ms, Ease Out
Fallback transition applied to non-scrolling interactions.

SMART ANIMATE
NavBar Scroll Variant Swap
Applied seamlessly for header shrink and background transitions.

SCROLL BEHAVIOR
Vertical Scroll, Keep Header Fixed
Header remains anchored to the top of the viewport during traversal. Optimized canvas rendering scale.

DEVICE VIEWPORT
Desktop (1440 × 900)
